Call for abstracts

We are excited to announce the 4th EUGLOH Annual Student Research Conference on "Pandemics and Global Health Crises". This conference aims to provide a platform for undergraduate and graduate students to present their innovative research and ideas related to pandemics and the broader field of global health crises.

We explicitly invite students from **all disciplines** to submit their abstracts for **poster presentations**. This conference will serve as an excellent opportunity to exchange knowledge, foster interdisciplinary collaboration, and contribute to the advancement of our collective understanding of pandemics and global health crises.

Topic areas for abstract submission include, but are not limited to:

- Epidemiology and disease modeling during pandemics.
- Public health responses to infectious disease outbreaks.
- Vaccines and antiviral drug development.
- Healthcare systems' resilience and preparedness for global health crises.
- Psychological and social impacts of pandemics on individuals and communities.
- One Health approaches to e.g. understanding zoonotic diseases.
- Global health policy and governance during health emergencies.
- Data science and AI applications in pandemic response.
- Ethical considerations in research and healthcare interventions during pandemics.
- Environmental factors influencing the emergence and spread of infectious diseases.
- Lessons learned from historical pandemics and their relevance today.

Important Dates:

- | | |
|--|-------------------|
| ➤ NEW Abstract Submission Deadline: | 30 September 2023 |
| ➤ Notification of Acceptance: | Mid October 2023 |
| ➤ Conference Dates: | 5 December 2023 |

Selected abstracts will be invited for poster presentations during the conference in Munich. All participants will have the opportunity to engage in discussions, attend keynote speeches by professionals in the field, and network with fellow student researchers either onsite in Munich or online.
