

Results of the EUGLOH Summer School 2020 Szeged

The EUGLOH Summer School 2020 organized by the University of Szeged was held between the 6th and 10th of July and ended with great results and experiences. The event contained **lectures** dealing with data processing, analyses and management; artificial intelligence, machine learning, modelling and COVID-19.

Let us revise the Summer School in numbers:

5 days
22 lectures
288 students
6 socializing programs
168 certificates
20 lecturers
5 universities

Distribution of students according to their home universities

As you can see **diversity** was a main feature of the Summer School from the students and the lecturers point of view which meets the overall goal of EUGLOH.

Besides these hard facts it is worth considering the feedbacks of the students. Our **satisfaction survey** represents an overall good experience and satisfaction. The response rate was 29,5% and most of the responders are from the University of Porto. 91% of the responders **would recommend** the Summer School to colleagues and fellow students and 79% of them **rated** the event 7 or more points.

Students mostly claimed that enough information was provided before the activities and they were **very or completely satisfied** with a whole process including the registration (77%) and recognition process (61%) and the central administration (72%).

Distribution of satisfaction on different fields

Along with the lectures, students were involved in several **side activities** such as Wall of Expression, Kahoot! about the EUGLOH, yoga session, jam session of the students and collecting kilometers. They also had the **chance to visit Szeged** through a video with the help of the Student Board members of Szeged which was welcomed greatly and got responses such as „*Really liked the video. I consider Szeged a place to visit, now. I'm looking forward to a FC Porto – Pick Szeged match, in EHF Champions League. Be wary, we'll win!*”

During the one week Summer School **168 certificates and 12 gifts** were handed out to the successful students of 5 universities which were crowned with several unforgettable moments as well!
