

Preliminary Schedule Occupational Epidemiology 2024

Monday, 29 January 2024

- 09:00-10:30 1 Introduction: Basics of OE
10:45-12:15 2 Group work: Reading of different OE studies, taking notes of study question, study population, study design, main outcome, biases
12:15-13:15 Lunch break
13:15-14:45 2 Group work: Presenting studies to others, including things unclear
15:00-16:30 3 Study objectives and study designs

Tuesday, 30 January 2024

- 09:00-09:45 4 Clinical pictures in occupational health
09:45-10:30 5 Occupational burden of disease
10:45-12:15 6 Bias and confounding
12:15-13:15 Lunch break
13:15-14:45 7 Drafting of a study protocol to one of several given study questions (or choosing your own study question) focussing on study population, study design, statistical methods (depending on knowledge), and potential biases and pitfalls
15:00-16:30 7 Presenting your study protocol (virtual flip chart), discuss with others

Wednesday, 31 January 2024

- 09:00-10:30 8 Job Exposure Matrix
10:45-12:15 9 Interventions in Occupational Safety and Health (OSH)
12:15-13:30 Lunch break
13:30-14:00 10 VHB course: Advanced Occupational Safety and Health - Intro
14:00-16:30 10 VHB course: Advanced Occupational Safety and Health

Thursday, 01 February 2024

- 09:00-10:30 11 Ambient monitoring and biomonitoring
10:45-12:15 12 Precarious work
12:15-13:15 Lunch break
13:15-14:45 13 Healthy worker effect
15:00-16:30 14 Course summary, exam questions and feedback
