

# Program

**8h30 Opening of the webinar**

**9h00 Session 1: Functions of microbiomes in human health**

**9h00 François LEULIER (ENS Lyon)**

*Microbial influence on Animal linear growth*

**9h45 Patricia LEPAGE (MICALIS)**

*Microbiome and Xenobiotics*

**10h10 Nicolas LAPAQUE (MICALIS)**

*Microbiome and ALPK1*

**10h35 Coffee Pause**

**11h05 Session 2: Functions of environmental and food microbiomes**

**11h05 Morgan GAIA (Genoscope)**

*Title coming soon*

**11h30 Peter MERGAERT (I2BC)**

*Bacterial symbionts of Insects*

**11h55 Christophe MONNET (SayFood)**

*Examples of functional microbiota interactions in cheeses related to iron acquisition*

**12h20 Purification Lopez-Garcia (IDEEV)**

*Ecology of microbiota in extreme environments*

**12h45 Institutional presentation by Estelle IACONA**

**13h00 Lunch break**

**14h00 Session 3: Translational Microbiome Science**

**14h00 Anne-Marie CASSARD (INSERM)**

*Intestinal microbiota and alcohol consumption*

**14h35 Mathieu ALMEIDA (MetaGenoPolis)**

*Title coming soon*

**15h00 Jean-Marc CHATEL (MICALIS)**

*Microbial anti-inflammatory molecules*

**15h25 Coffee Pause**

**15h55 Session 4: Role of the human microbiome in disease and health – clinical applications**

**15h55 Laurance ZITVOGEL (Institute Gustave Roussy)**

*Immuno-modulation*

**16h45 Harry SOKOL (Université Paris-Saclay, INRAE, AgroParisTech)**

*Fecal microbiota transplantation in Inflammatory bowel diseases*

**17h35 Conclusions**
