

# “DOPING IN SPORT”

**September 8, 2023, Full day (9:30am—6pm), online**

**OVERVIEW.** This workshop offers an overview of current knowledge about doping in sports through different perspectives: medical, political, physiological, training, biochemistry, technical, psychological or sociological.

The workshop is composed of keynote speeches given by internationally renowned specialists as well as thematic round tables. Experts who will participate in these round tables are academics, coaches, scientists or representatives of the French Ministry of Sport in charge of anti-doping strategy.
