## Welcome

Welcome to our EUGLOH 2.0 Kick-Off conference. We are delighted to host this event to celebrate and explore the commitments embedded in the second round of the European University Alliance for Global Health!

The Alliance is a European association of universities and higher education institutions supported by the European Commission and European Union member states, with the aim to establish a European Education Area. Co-funded by the European Commission through the Erasmus+ programme in this round, our Alliance is further enriched by the knowledge and experiences brought to the table by four new partner universities (Alcalá, Hamburg, Novi Sad, and Tromsø), which will add to the fruitful collaboration of the five existing members.

Structured across two days, the EUGLOH 2.0 event will be an opportunity for participants from the member universities and the Alliance's partners to discuss institutional, strategic, and societal aspects of the project implementation, and their main commitments within it. Along with discussing the priorities for the next four years, the launch event promises to be a wonderful and lively opportunity for networking and institutional alliance-building with members of the societies concerned, with the chance to discuss impacts on health in both academic and non-academic spheres.

We wish you a productive and pleasant stay, with the opportunity to enjoy Munich in its winter ambience. Thank you for being part of this initiative!

Prof. Dr. Francesca Biagini  
Vice President for International Affairs and Diversity

## About EUGLOH

The European University Alliance for Global Health (EUGLOH) is a strategic partnership between the Paris-Saclay University (UPSaclay), Lund University (LU), the University of Szeged (USZ), the University of Porto (UPorto) Ludwig-Maximilians-Universität München (LMU), the University of Alcalá (UAH), Tromsø University - The Arctic University of Norway (UiT), the University of Novi Sad (UNS) and Universität Hamburg (UHH) in the context of the European Commission's European Universities Initiative.

Within the EUGLOH alliance, a balanced interfaculty consortium of researchers and students are developing interdisciplinary activities, particularly in education and training, related to Global Health. Combining expertise and scientific infrastructure in fields such as biomedicine, life sciences and social sciences, our inter-campus initiative will tackle a variety of challenges related to well-being and public health.

## The Kick-Off

Organised as part of a series of tailored sessions, the aim of the Kick-off meeting is to familiarise the participants with the conceptual, strategic, operational, and institutional commitments of EUGLOH 2.0 implementation.

Existing and newly joined participants will gain knowledge about the **Alliance's Cooperation Model** and its key components to enable EUGLOH to become a world class higher education, research, and innovation Alliance in the field of global health.

This event brings together the different stakeholders within the alliance and offers opportunities to work closely together with our counterparts at the partner universities and progress further with important infrastructural, managerial and administrative aspects of the project. The kick-off enables us to discuss innovative pedagogy and establish ways of transferring knowledge into conceptual, societal, economic and technological innovations. The event is an opportunity to share ideas and gain the necessary knowledge and skills to ensure the efficient performance of the Alliance. EUGLOH's students are at the heart of the Alliance's priorities and this event is an opportunity to share experiences.

**We hope you enjoy the EUGLOH 2.0 Kick-Off!**
